

To Whom It May Concern,

Please find enclosed the information you requested about our entertainment services. Aerial Revolution Entertainment is a group of experienced and enthusiastic artists who are committed to providing unique and exciting acrobatic shows. We offer acts such as: Aerial Dance, Ground acrobatics, Gymnastics, Pole, and Street Performances. As individuals, we have worked for companies like Cirque du Soleil, Sea World, Triton Circus, Ringling Bros, and more. Collectively, we have performed for large functions at corporations such as MTV, E! Entertainment TV, Coca-Cola, Budweiser, Westfield Malls, Panasonic 3D Televisions, and have participated in festivals, productions, parties, clubs, and fundraisers all throughout the U.S. In San Diego, our past clients are: T US Grant, On Broadway, Stingaree, Hotel Se's Siren, W Hotel, House of Blues, Hardrock Hotel, Museum of Contemporary Art, Top of the Park, Rich's, Bourbon Street, 4th and B, Spin, and many many more amazing companies and private galas!

Why hire a production company instead of contracting the performers yourself? Safety, Experience, and Convenience! We have over 10 years of event experience, a commitment to safety and routine practice. In addition, we will hire only the most professional, theatrically trained, pleasant, and safety conscious performers and rigging specialists. We have our own dedicated training facility and we are in the gym daily working on our acts so that we can bring you the most modern routines around. We pride ourselves on being respectful, flexible and easy to work with! We are customer service oriented, and will do what it takes to make your vision come to life for your event! We also have a REAL (\$2mil/\$1mil) insurance policy...Not one of these "specialty performers" insurance policies from a Mom and Pop shop. Those only cover the individual, not the venue!

Aerial Revolution offers quality Cirque/Circus style shows that will wow your audience and fit any occasion. We specialize in custom performances. Each event can be carefully crafted with your choice of costume, makeup, music, and choreography...gear for any age, style, and vision. We will work with your needs and your budget! Please view the enclosed media materials: Updated company resume and short bio for executives, links to exclusive clips of our full scale productions: "Pan Gu," "CirKiss" and "Dreams." You will also find our menu of services, and a few of our beautiful high resolution photos. For your marketing purposes, please see attached raw files of our logos. Please visit our website, www.aerialrevolution.com for more media and information. Then, give us a call for a quote and scheduling information.

We look forward to providing you with our outstanding art!

Thank you,

Jessica Flores
Aerial Revolution Entertainment

Aerial Revolution Entertainment offers high-quality, cutting edge, and affordable live entertainment, in the spirit of contemporary circus much like Cirque du Soleil. Aerial Revolution will provide its innovative circus apparatus and professional entertainers to produce aerial and ground acrobatic acts that will be custom to the client's age, taste, or theme choice. We can also provide atmospheric performers on stilts and/or power risers.

The relationship between us will direct immediate attention to the event purpose, and will add ambiance and an artistic backdrop for your guests and patrons. Rates projected in this quote imply a "typical" cost of the acts Aerial Revolution sells, but does not imply limitations as to the types of acts we can provide. Rates are completely negotiable and based on specific and custom event. In addition to revenues generated by the above productions, Aerial Revolution Entertainment assumes that the client will provide a safe environment and security for our performers.

The Aerial Revolution Entertainment team has expertise, experience and commitment to make this venture a highly successful event.

Please view our website at: www.aerialrevolution.com

Photos and Description of Acts:

We have included several photos for you to use as inspiration. Some costuming may not be suitable for the acts we are providing for your event. All of the details regarding proper costume, theme, makeup, etc, are completely talored to your preference. We consider that a very big part of pulling together your event and theme. There are many, many more apparatus, available. We have included what our most popular sellers are, but we hope you will dream BIG, because ANYTHING IS POSSIBLE.

Aerial Silks Soloist

Aerial silks are a beautiful ballet in air, or a stunning display of strength and endurance. Using any color choice of fabric, the dancer will climb, wrap, and fall in the most graceful ways creating suspense, gorgeous shapes, and adding color and flair to your event.

Aerial Silks Duet

Aerial silks are a beautiful ballet in air. Using any color choice of fabric, the dancers will skillfully lift one another, creating a passionate display of trust, suspense, strength, and grace. Each dancer may also climb, wrap, and "fall" throughout the routine. Many of our duet aerialists are also professional dancers and may add some ballet, tango, adagio, or acrobatics to their routine to create a multi-level routine that builds from the ground up.

Handbalancing

*A handbalancer is a unique performer who is able to stand for long periods of time on their hands or hand. Often performed on "canes" or sticks with blocks of wood attached at the top, the handbalancer changes from one hand to the other, in multiple positions with their body. Often, a handbalancer may also practice contortion, and therefore bending in incredible and unbelievable ways. Handbalancing is a practice that requires a lifetime of learning, and is among the most difficult acts to find, as there are only a select few who have this amazing ability. *May also be performed as a duet.*

Contortionist

This ancient performance art will amaze any audience. With utter control and strength, the contortionist will bend and twist their body to create unimaginable shapes and move as fluid as water through balancing postures, spine tingling backbends, and extreme split positions.

Aerial Hoop ("Lyra" or "Cerceaux")

*This multi-dimensionally moving apparatus is one of the more versatile acts. Not necessary to have a high ceiling, many aerialists who perform Lyra prefer to spin from the ground up and back down again. Lyra can be very high energy, or it can be absolutely dramatic and graceful. A performer on lyra is generally flexible like a contortionist and enjoys spinning extremely fast as they change positions and tilt the hoop in several directions. *May also be performed as a duet.*

Chinese Pole Acrobat

In San Diego, this act was made famous by Sea World in their show, "Cirque de la Mer," but the Chinese have been climbing and "flagging" on poles for thousands of years. A very exciting act, chinese pole includes climbs, jumps, falls, and positions of unreal strength. Great for almost any event, we offer a free-standing cube shaped apparatus for performance of this act.

Aerial Net

An aerialist with a nautical feel, perhaps? The aerial net is made of rope and is similar to the aerial hammock, but more translucent. Be amazed as the aerialist switches not only the position of their body, but also the shape of the net itself.

Aerial Hammock/Sling

The aerial hammock is made of the same fabric as the aerial silks and is similar to the aerial net, but more elusive. Beauty and grace, or energetic and powerful is the aerialist. Versatile for height challenged venues, with the same colorful appeal as the aerial silks.

Aerial Cube (stock photo)

A very unique geometrical apparatus that blends the beauty of the lyra and the trapeze with a new dimension of tilts, turns and impressive feats of balance, strength and flexibility.

Aerial Bartender/Chandelier

Aerial bartending can be done on any apparatus, but why not splurge and impress your guests with a giant sparkling chandelier? Bottle service from beautiful, talented aerialists is sure to WOW your guests.

Aerial Straps

The aerial straps are made of nylon material and are most often seen as a "flying" act attached to a motor and capable of lifting the performer to heights and back down again. One of the strongest and more masculine of the aerial acts, straps are very unique and incredibly impressive.
